## 2.4. STPI, HYDERABAD - ORGANIZATION CHART

## **2.5 Details of services provided by STPI -**

### **2.5.1 Software Technology Park (STP) Scheme / Electronic Hardware Technology Park (EHTP) Scheme**

Software Technology Park (STP) is a 100% export oriented scheme for the development and export of computer software using communication links or physical media and including export of professional services. The scheme integrates the concept of 100% Export Oriented Units (EOUs) and Export Processing Zones (EPZs) of the Government of India and the concept of Science Parks / Technology Parks as operating elsewhere in the World.

#### **Highlights of STP scheme -**

- ◆ Approval under single window clearance mechanism.
- ◆ Up to 100% foreign equity permitted.
- ◆ Goods imported / procured domestically by the STP units are completely duty free.
- ◆ Second hand capital goods may also be imported.
- ◆ Sales in the domestic market are permissible up to 50% of the export.
- ◆ Income tax benefit under sections 10 A / 10 B of Income Tax Act

### **2.5.2 High Speed Data Communication Facility (HSDC)**

STPI has designed and developed state-of-the-art HSDC Network called SoftNET, which is available to software exporters at internationally competitive prices. STPI has set up its own International Gateways at 44 locations for providing HSDC links to the software industry.

Local access to International Gateways at STPI Centers is provided through Point-to-Point and Point-to-Multipoint microwave radios for the local loop which has overcome the last mile problem and enabled STPI to maintain an up time of nearly 99.9%. The terrestrial cables (fiber/copper) are also used wherever feasible. These communication facilities are the backbone of the success in the development of offshore software activities.

#### **STPI provides the following HSDC services through this network: -**

1. International Private Leased Circuits (IPLCs) in the bandwidth of 64KBPS to 8 MBPS.
2. Dedicated and Shared Internet Services
3. Web/Home pages - hosting, authoring & maintenance.
4. Other value added services.

STPI provides worldwide connectivity for its software export units and is radiating about more than 400 MBPS and is operating with international carriers from its earth stations / available fiber capacity for various destinations.

### **2.5.3 Incubation**

The incubator concept has emerged world wide as an essential component of the infrastructure required for the growth of high technology businesses including Information Technology and Software Development. These Incubators provide the necessary help to nurture technology ideas into commercial successes.

STPI has launched the concept of incubation facility in many of its centers for the Small and Medium Entrepreneurs (SMEs). STPI sets up entire facility ready for commencing operations by software units from day one. It offers advantage of no gestation period and does not require any capital investment. It helps in developing confidence in the client and ensures that the business opportunity is not lost.

The Incubation facility has the following facilities:

- Modular Built up are for ready to use by the Software Entrepreneurs
- Back up power supply
